

We Make the World's Best...

To Make the World Better!

1. By providing jobs to local Mozambicans as well as supplying jobs for the entire cashew supply chain

- 50 people employed at our roasting factory
- 1,000 people employed at shelling factory up the road
- 50,000 smallholder farmers have a market for their entire crop
- People attain dignity, opportunity, and hope in one of the world's poorest countries

2. We do everything at the source of where our cashews are grown – improving carbon footprint, reducing packaging, and bringing recognition back to Mozambique

3. As a social impact company, we give the majority of our distributed profits to the poor, widowed, and orphaned of Mozambique

- Forming families by creating Sunshine Houses for widows and orphans
- Running programs for vulnerable children in the communities (Beacons of Light Programs)
- Planting trees for smallholder farmers in remote villages

*Hope never tasted
so good!™*
