

It's in the Craft

One sip and you'll see that there's something special about our kombucha. Maybe it's the natural acidity and tartness, or, the crisp, refreshing flavors. Maybe it's the fact that it pairs so well with food, friends and good times. It's hard to say, but if you ask us, it's all of the above.

Of course it's also rich with probiotics, B vitamins and beneficial amino acids, but it's our custom-crafted tea blends, unique flavors and herbal adaptogens that set it apart. At only 35 calories or less per bottle, it's an indulgence you can feel good about.
