HAPPY BEARS

"My experience of vegan jellies is either the taste isn't quite there. Or the texture. This company got it all done. I'd stock this and I don't eat sweets like that. I have to feel for them. Quality."
-Chantellè

"Perfect little taste explosions. So glad to find a jelly fruit that tastes of fruit as so others have not plus these are the perfect middle ground of soft n hard. Just yummy."
-Kibbie

"These taste so nice!"
-Michaela

"My new favourite sugar free treat! These are proper jelly sweets, not rubbery types that give your jaw whiplash when biting. The flavour is intense, mouth watering - just delicious. You nailed it Jealous Sweets!"

LOVE BEARS

"Delicious! Today we shared it with everyone ...vegan friends, Muslim friends, small friends it's for everyone."
-Cako

"I first found these in a major supermarket and was very impressed by the product. The flavour is perfect and the consistency too. Usually sugar free jelly sweets are too rubbery but these have a lovely softness to them. I also love the apple and lemon flavour."
-Busy Bumble Bee

"Delicious really taste the grapefruit flavour - my favourite"
-Ginger

"The packaging showed all the ingredients which were all natural fruit flavours and I could really taste the pineapple and grapefruit. I have tried some sugar free boiled/gum sweets and they just don't work; these were amazing and the sweetness was just right and did not taste artificial at all; I honestly could not tell they were sugar free."
-Mr S

"These sugar free bears are amazing. These bears are so full of flavour, so soft and do not have that sugar free after taste."
-Naomi

-HYHc

"Taste like jelly beans but sour. I really liked it."

-Slightly Hazy

BERRY SOURS

"Very nice sweets gummy and sour 3 lovely flavours. I can definitely recommend them."
-Gina

"These are so yummy! I found them a bit too sour but other than that they are really good and I will be buying other flavors/"
-EOB_AB

"The sweets are jelly bean sized but slightly harder like a gum. I found the flavour pleasant and they definitely had a berry type of tang, and even more flavour if not chewed and kept in the mouth longer. The sweets make your water and so are very refreshing, without being too acidic. There's no nasty after taste, no headache from sweeteners, nor stomach issues."
-Victoria

"Really love this flavour- I would definitely recommend!"
-Rebecca R.

BERRY FOAMS

"These are amazing flavours and very tempting"
-Aaysha86

"Absolutely delicious, love these, will be buying more"
-Penny Goodrich

"I was expecting to not like these, gluten free and vegan don't always equate to delicious in my experience. However, they are utterly delicious ...flavoursome and so fruity. I like that you can identify each fruit by taste alone. Lovely texture, chewy yet firm.."
