# OUR TEAM

---

Aiko, written with the Japanese kanji characters for “love” and “child”, refers to “a person who loves others”. That fact was not a reason why this name was given to the newborn company, but we were pleased to find out that our name reflects our attitude.

Aiko Brands is a nationally recognized importer of alcoholic beverages to the US market. Our portfolio represents a broad variety of products that can satisfy the most exquisite taste. The success of the company is caused not only by our individual approach to diverse market segments but also by our deep knowledge of the various ethnic market needs and demands.

Our team of sales professionals are intimately familiar with their respective markets, making it possible to sell our products through a network of distributors renowned for excellent account service and market penetration. Our distribution network consists of over 185 partner companies located in all 50 US states. We pride ourselves on our ability to select beverages based on the knowledge of US consumers’ taste preferences, market trends, and quality in the bottle. Our products have been imported from South America, Europe, Africa, Asia, and more. In addition, we have developed valuable strategic partnerships with several European manufacturers of alcoholic beverages and obtained exclusive import rights.

**Cases per Layer:** 12  
**Cases per Pallet:** 84

# SOJU

Damso Premium soju aims to make clean liquor with only the starchy layer of rice, removing 10% more of the rice bran layer compared to the standard existing process. This process ensures a consistent taste without being affected by rice milling quality that varies each time.

It is the first method to be tried in Korea, and our soju is characterized by its sweet fragrance and mild taste. In addition, we made our soju to be smoother to the throat through our own aging and filtering process, so that the perceived alcohol content is much lower than the actual alcohol content, and is less likely to cause a hangover.

## Damso Premium

(750mL)

**ABV:** 23%

## JAPANESE WHISKY

The Japanese public preferred a softer, smoother, less-smokey version of whisky, and their master distillers worked tirelessly to cater to the public's flavor profile. The result: a whisky that rivals even the legendary scotches because of the quality and never before seen flavor and finishes. Not to mention Japan made the whisky Highball famous due to the light, sweet, and floral whiskies effect on sparkling water. Yamato does just that, pairing perfectly with the traditional Japanese whisky flavor profile. You can witness a silky smooth finish, beautiful fruits, and vanillas from the start. Yamato is your entrance into the world of high-end Japanese whisky. Enjoy it neat, on the rocks, or in a highball.

# FIGURINES

**MacAulish**

(750mL)

**ABV: 40%****UPC: 7 83495 17233 8****Bottles per Case: 12****Cases per Layer: 11****Cases per Pallet: 55**

Elevate your whisky experience with a sip of the MacAulish Blended Scotch Whisky- an homage to the Braveheart legacy, elegant craftsmanship, and the pursuit of the perfect blend. Indulge in a carefully orchestrated blend designed to extract the finest qualities from each whisky, resulting in a seamlessly smooth and harmonious creation.

By uniting these distinct expressions, the depth of malt and the finesse of grain interweave, producing a nuanced and balanced profile that showcases the best of both worlds.

Here's to a journey through the intricacies of flavor, where each sip narrates a tale of careful blending and unmatched artistry.
