OUR STORY

Why is a nitro coffee company making an Oat Milk? Good question! We started RISE with a simple mission: to make better tasting beverages with better ingredients. To create our award-winning lattes we tested every plant-based milk on the planet, and Oat Milk was love at first taste. One problem! At RISE, we only use organic ingredients and Organic Oat Milk did not exist.

*(That is not the problem,
that is the future)*

So, we did exactly what we did with our coffee, and set out to make our own. Our ingredients do not include any gums or binders – simply organic oats, sunflowers, salt and water. We hope you enjoy it as much as we have enjoyed making it for you!

Oat milks: Size = 32 fl oz • Shelf stable, shelf life = 1 year, refrigerate after opening, consume within = 7 days • 155 cases/pallet • weight: 13.5lbs 6pack and 2.2lbs single • 6 units per case • MSRP = \$3.99 for singles, \$23.99 for 6 packs

**Some additional sugars are created when producing organic oat flour
