

## **Grovara Friends and Family -**

Please join Abu and myself at Grovara HQ in Philadelphia - June 3rd - for the debut of Grovara's B2B marketplace and trading platform.

Since our acceptance into Ben Franklin Technology Partners (2016) - we have been diligently working with multiple development teams, designers, and engineers to create a technology that automates the laborious workflows needed to sell American Wellness Brands across the globe.

Today, Grovara has 14 brands under contract; all of which are category leaders in the natural food, beverage, and nutraceutical spaces. A database of over 5000 retailers in 45+ countries; keeps us beyond busy bringing brands global. Our top performing product categories are Kombucha, Organic Sweeteners, Juices, and Sparkling Water.

Grovara has strong exclusive distribution contracts with our supplying brand partners... meaning, this is our and only our catalogue. In the future, we hope to emulate Wholefoods with their "365" house brand or Costco with their "Kirkland" brand - to create a proprietary offering for our downstream buyer network.

Grovara is at the forefront of trade and we are beyond excited to share with you the amazing ways we are impacting how American companies think about opportunities overseas.

**Join Us - June 3rd - The CIC - 6pm to 7pm - 3675 Market Street - Philadelphia**

Light food and beverages will be provided.
