

Rami Trade is a newly established importer and distributor based in South Korea, specializing in premium food and beverages. Our focus is on introducing carefully selected, high-quality products from the United States and Europe to meet the growing demands of health-conscious consumers in the Korean market.

Currently, we are in discussions with multiple beverage brands for potential import collaborations as we work to build our initial product portfolio. We are actively seeking to partner with reputable manufacturers who align with our vision of quality, sustainability, and innovation.

Our main sales channel will be Naver Smart Store, South Korea's leading e-commerce platform, which offers extensive market reach and high brand visibility. This platform enables us to effectively promote your products to health-conscious consumers across Korea. Additionally, we plan to expand into premium online grocery platforms, department stores, and warehouse-style retailers like Costco to further extend market reach.

We are eager to establish long-term, mutually beneficial partnerships with trusted brands and look forward to introducing their products to the dynamic Korean market.
