Subject: Heavy Metals Statement

Honix Declares that:

At Honix, we are committed to ensuring the highest standards of product safety and quality in all our bulk ingredients. As part of our quality assurance practices, we rigorously test our products for heavy metals to guarantee they meet regulatory requirements and industry standards.

Our comprehensive testing protocols include screening for a range of heavy metals, including but not limited to arsenic, lead, cadmium, and mercury, at various stages of production. We employ state-of-the-art analytical techniques and collaborate with accredited third-party laboratories to conduct these tests.

We are pleased to affirm that our bulk ingredients consistently meet stringent limits for heavy metals set by regulatory bodies such as the FDA and EFSA. Our commitment to product safety extends throughout our supply chain, from sourcing raw materials to the final distribution of our products.

At Honix, we prioritize transparency and integrity in all our operations. Therefore, we are dedicated to providing our customers with detailed documentation, including Certificates of Analysis (COAs), that attest to the compliance of our products with heavy metal regulations.

Rest assured, when you choose Honix as your supplier of bulk ingredients, you can trust in the purity, safety, and quality of our products.

For any further inquiries regarding our heavy metals testing procedures or product specifications, please feel free to contact us. We are here to support you in meeting your quality and safety requirements.
