This letter is to certify that all That's it Nutrition, LLC. products as well as our dedicated manufacturing facility are free from the top 12 allergens; milk, tree nuts, peanuts, eggs, shellfish, fish, soy, sesame, mustard, wheat, and sulfites.

Coconut is the only tree nut processed in our facility. We sanitize all equipment and check for allergen trace to undetectable levels using industry-recognized testing kits BEFORE running non-coconut varieties. As such, we market our products as free from the top 12 allergens.
