Re: Refresco Beverages – NSF Letter of Good Standing

To Whom it May Concern,

Refresco Beverages is currently undergoing its annual monitoring and is considered to be in good standing with the Non-GMO Project Certification.

Refresco Beverages Non-GMO Project certificates for all Waterloo products may be considered current for an additional three months past the issue date of this letter, or until a subsequent Certificate of Verification is issued, whichever occurs first.

If you have further questions or concerns please contact me.

Sincerely,

*Mark Owens*
